Thank you for taking the time to look through the Maasai Women Fair Trade Centre Catalogue. The items featured here are an indication of the products that our Maasai Women can make, however they are also able to do beading and designs in a wide range of colors and styles. If you would like to order a variation on one of the items you have seen in this catalogue, or if you are interested in something altogether different which you would like designed and made, the Maasai Women Fair Trade Centre can also custom order any item.
